Guidelines for publication in Gold Bulletin

The Editorial Team are currently receiving increased numbers of manuscripts for publication in *Gold Bulletin*. As a consequence, new Guidelines for Authors have been introduced (see http://www.goldbulletin.org/guidelines_for_authors/).

This places more severe limits on the length of manuscripts that will be accepted. In particular, scientific papers should not be more than four published text pages* plus tables and figures in length (longer ones only at Editor's discretion).

Manuscripts submitted that are longer than the Guidelines will be returned for shortening (unless the author can justify the need for a longer text).

The Editor

* this equates to about 8 typed pages of text on A4 paper
